Benefits: Average 75% energy savings thanks to speed-regulated components and heat pipe

technology

Suitable for international use due to a unique multi-voltage capability

Longer service life of the components inside the enclosure and the cooling unit due to

component-friendly cooling

Intuitive operation due to touch display and intelligent interfaces

Material: Sheet steel

Colour: RAL 7035

Protection category IP to IEC 60 529:

Internal circuit IP 55

Supply includes: Nano-coated condenser

Integral electric condensate evaporation

Assembly parts

Fully wired ready for connection (plug-in terminal strip)

Note: Please observe the mounting instructions.

Firmware can be updated using the RiDiag III software (3159.300)

Options: For remote monitoring and networking of cooling units and chillers in the Blue e+

generation, please use the loT interface (Model No. 3124.300). Increase machine availability and process reliability with remote monitoring of device data, statuses and

system messages.

Product features

Variant: wall-mounted
